

DNBC website: Customise - Site Identity

Site Identity

The only things that are normally changed here are the Site Logo, Site Title and Site Icon. The Site Logo and Site Title are displayed at the top and bottom of the Home Page.

The current logo, shown above, can be found in the media library Graphics folder. There are three versions of the logo in this folder.

The 50 x 50 size is used as the Logo.

The 512 x 508 version is used as the Icon.
